

## Letter to parents

Dear Parents,

We want to work together with you to ensure that your child is well looked after here in our facility. Your child spends a large part of the day in our facility. In an atmosphere of security and assurance, your child should discover many different possibilities for finding out about him-/herself and his/her environment. He/she will become acquainted with peers of different social groups and nationalities.

Early childhood care and education include introducing children to tolerance, solidarity, responsibility, self-dependence, a sense of community and a love of learning. We give special significance to a holistic education. We focus on the needs and personal interests of your child.

Our facility is a service provided by our church/parish/town. With its education and care mandate, it is integrated in the life of our church community/parish/town and conveys aspects of the Christian faith in a form suitable for children, primarily through stories, songs, prayers and games and by celebrating religious festivals. Our facility becomes a place of encounter and community for everyone involved.

In order to give due consideration to the situation of the families and children, we need your cooperation which includes regular meetings with the facility staff and various shared activities.

We hope that your child and you as parents will feel at home in our facility and we look forward to working together with you in a trusting relationship.

With kind regards,  
Your child day-care centre
